10:30 AM	<u>Attacking Cisco WLAN Solutions</u> - Daniel Mende (ERNW GmbH) & Oliver Roeschke (ERNW GmbH)
11:30 AM	<u>Silent Steps: Improving the Stealthiness of Web Hacking</u> - Laurent Oudot (Founder, TEHTRI Security)
12:30 PM	LUNCH BREAK
2:00 PM	<u>We Don't Need No Stinkin' Badges: Hacking Electronic Door Access Controllers</u> - Shawn Merdringer (Security Researcher)
3:00 PM	<u>Hiding a Giant: Analysis of a Next Generation Botnet</u> - Dino Covotsos (Managing Director, Telspace Systems)
4:00PM	COFFEE BREAK
4:30PM	<u>Base Jumping: Attacking GSM Base Stations and Mobile Phone Basebands</u> - The Grugq (Independent Network Security Specialist)
5:30PM	END

HITB2010DXB AGENDA - CONFERENCE DAY 2 - 22ND APRIL 2010

8:00 AM	REGISTRATION
9:00 AM	<u>Keynote Address 2 - Near Real Time Detection</u> - Lurene Grenier (Team Lead, VRT, Sourcefire Inc.) & Matt Olney (Research Engineer, VRT, Sourcefire Inc)
10:00 AM	COFFEE BREAK
10:30 AM	<u>SAP Penetration Testing with Bizsploit</u> - Mariano Nunez Di Croce (Director of R&D, Onapsis)
11:30 AM	<u>Deception 2.0: Gathering and Exploiting Information</u> - Fredric Raynal (Head of Research, Sogeti / Cap Gemini), Alexander Mascret (Sogeti / Cap Gemini) & Christophe Devaux (Sogeti / Cap Gemini)
12:30 PM	LUNCH BREAK
2:00 PM	<u>Open Sesame: Examining Android Code with undx2</u> - Marc Schoenefeld (Independent Network Security Specialist)
3:00 PM	<u>Web Security - Going Nowhere?</u> - Saumil Shah (Director, Net-Square)
4:00PM	COFFEE BREAK
4:30PM	<u>A Case Study of Recent Windows Vulnerabilities</u> - Gynvael Coldwind (Researcher, Hispasec)
5:30PM	END

KEYNOTE 1: John Viega (Executive Vice President, Perimeter eSecurity)

John Viega is Executive Vice President of Products and Engineering at Perimeter eSecurity. John has authored numerous books on security, including the recent "Myths of Security", and the seminal "Building Secure Software", which was the first book on application security.

KEYNOTE 2: Lurene Grenier (Team Leader, VRT, Sourcefire) & Matt Olney (Research Engineer, VRT, Sourcefire)

Lurene Grenier is the analyst team lead for Sourcefire's VRT. She is currently a developer on the Metasploit 3 framework team, primarily in the areas of shellcode encoding and exploit development. Matthew Olney is a Research Engineer on the Vulnerability Research Team at Sourcefire and has worked in network and security engineering roles at Verisign and the Department of Defense.
